TO WORK OUT IN

Johnny Hayes to Take Marathon Runners Over Course and Instruct Them.

STOCKHOLM, July 2.-The American athletes are now training hard for the big

day. To-day all but the Marathon run-ners and weight men will work out in

the beautiful stadium where the gree international games will take place. The

Marathon runners will be taken ove the course and instructed by Johnn Hayes, winner of the sensational Mara

In the tryouts yesterday the Americans displayed topmotch form. The elimate

thoroughly agrees with them, being almost typical of that which obtains in the majority of American cities during the summer months. This is conceded

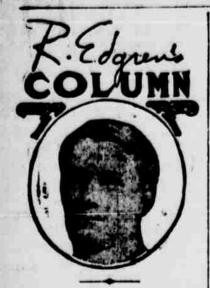

to be a big factor in favor of the boys from the States. Ralph Rose, the glant shot putter from

the Pacific coast, caused a general ainrm to be struck in the rivais' camps by putting the shot at feet 4 inches, which is two inches beyond the world's

thon at the London meet in 1908. Forty-nine star members of the Eng lish team are now here. The Americans all went down to the train to welcome

complete Canadian team.

Sld Burns the Ripest Lemon Mike Gibbons Has Picked in a Long Time.

Copright, 1912, by The Press Publishing Co.
(The New York World),

M IKE GIBBONS is the busiest little lemon picker in the trade just now. Last night at the Garden he plucked the ripest fruit that has come his way in a long time in Sid Burns, sileged welterweight champion of England. If Sid is champion, the other English welters must be pipping. other English welters must be pippins. Gibbons/ weighed (officially) 150 1-4 pounds, stripped, just before entering the ring. After announcing this weight, Joe Humphreys, hardened as he is. didn't have the cheek to introduce Gib-bone as the "weiterweight champion"-a title of which Mike is very fond, as it enables him to choose his opponents among smaller men than himself. Burns weighed 148% pounds in ring costume. He was as tall as Gibbons. and looked as if he'd stopped many a good punch in his time. The bout was put on ahead of the semi-final, as Obbons said he wanted to catch a train tor the West.

When the scrap tarted the English boxer showed a flash for a moment, jabbing rather eleverly and dancing about the ring like a shadow. He ever rushed Gibbons and took chances tradiches with him. Mike looked surprised. Burns kept up his work. He was willing enough, but after a minute or so it was evident that he didn't have s punch that would dent a feather pil-

When Mike found this out he began fooling. He held back his punches. He grin and maked around and let Burns massage him with his feeble jabs and hooks. Now and then he hit a little harder and Burns grinned. The growd didn't care for Mike's stalling tactics, and loudly urged him to "hurry up and catch his train." Mike dropped Burns once each in the third and fourth rounds, and near the end of the nith. being advised that he had just forty-five minutes to spare, took off the brakes and let a couple of punches go in earnsecond time for a cold K. O. He had been down only six seconds when the end of the round came, but he was in

may possibly give him something of a fight he'd do better to stay in St. Paul.

THE "semi-final," between Young Shugrue and Johnny Dundee, was ten times as good a fight at the Gibbons-Burns affair. It was a tenround slasher. Shugrue, who has been whizing upward like a rocket during the past month or so, made good again by defeating the husky little Italian lie used a bothersome left hand punch in the short ribs all through the fight, making Dundee do a little more dancing than usual. In the maxups Shugrue had the best of it all the way except for an occasional Dundee flurry. He used much better headwork and less leg work than setter headwork and less leg work than the Italian, met Dundee's rushes without giving ground, and hit much more accurately. Several times he stood Johnny up on his leels. Dundes is a rusged specimen, able to take a lot of punching, and full of fight. He made a hot finish of it in the tenth.

SCRANTON. July 2.—Needing pitchers as they do, the Cubs are undoubtedly a sore lot to-day after reading of the wonderful pitching performance of George Pierce, the southpaw of the local New York State League team. In a thirteen inning game he fanned twenty-two Wilkes-Barre batters, didn't hit or pass a man to first and whitewashed his opponents. I to 0. Outfielder Craig of the champions fanned no less than five times. Only one man Craig of the champions fanned no less than five times. Only one man reached second base, but only because of a misjudged fly, rierce was the property of the Giants last spring, and was turned over to the Cubs when the latter refused to waive. Manager Chance sent him to the local club without a trial. Consequently he must be a very sorrowful leader to-day.
